Section I: Overview

The Webcam proofing process is being offered because your identity has not been able to be confirmed thru Knowledge Based Authentication and/or thru the US Postal Service options.

The purpose of this document is to detail the Identity Proofing (IDP) process using Webcam Proofing with Exostar for existing Non-Employee accounts. SAIC requires a user to complete IDP in order to continue accessing SAIC systems.

An SAIC sponsor must submit or approve an account request for a non-employee to initiate the process.

Section II: Non-Employee: Identity Proofing (IDP)

Users will need to complete the IDP process in order to access SAIC systems. See below process for step by step directions.

- NOTE: You should have received an email invitation from cornerstone-notify@saic.com containing a click “HERE” link to access the Non-Employee Account Management System. IMPORTANT: Do not delete this email as it contains a unique link that was assigned to you. You will need to come back to this email and click that link during the process, to be able to access the provisioning system.
• **Step 1:** Webcam proofing scheduler system. Follow the prompts to schedule a Webcam proofing session with an agent.
